Re: WRD110-078: Comp & Comm I (Fall 2013): For our final class tomorrow

Megan I just wanted to tell I greatly enjoyed your class and having you as a teacher. I am very upset I couldn't get into your class next semester. I also believe you truly cared about each one of us and that's what was so important to me because otherwise I felt like I was just a number at a large university and I don't like that. You really have helped me a lot this semester both personally and in my writing. I hope the rest of your education process continues to go well and I just want to say thank you for making my first semester of college a much more meaningful and enjoyable experience.
